SOCIO-EMOTIONAL LEARNING FOR YOUNG LEARNERS

SEL is not an option. It happens in the classroom whether we are aware of it, or in any way influencing it, at all. This course will improve delegates' understanding of SEL and show how the acquisition and application of knowledge can be impacted both positively and negatively by factors that come under the heading SEL. Delegates will consider how the use of different teaching methods and content can help learners to maximise the positive impact of SEL.
